| **Verb (used without object)** | 
| 6. to travel from place to place. | 1. seek out, select: לָתוּר לָהֶם מְנוּחָה Nu 10:33, Dt 1:33, Ez 20:6. |

| **Verb (used with object)** | 
| 8. to travel through (a place). | 3. go about, figurative Nu 15:39; 1 K 10:15 2 Ch 9:14, usually merchants Ju 1:23, they made a reconnaissance at Bethel. Pr 12:26 the righteous searches out, or is a guide to his friend. |
| 9. to send or take (a theatrical company, its production, etc.) from town to town. | 
| 10. to guide (someone) on a tour. | 

---

**Tower**

Linguists have great difficulty with this word. They define it as a mass of building standing alone and insulated, usually higher than its diameter, but when of great size not always of that proportion. Or, a building or part of a building that is exceptionally high in proportion to its width and length. Or, to rise or extend far upward, as a tower; reach or stand high: The skyscraper towers above the city. It probably appears very large or occupies a commanding position.

These are definitions of its structure, not its purpose.

The purpose is seen in additional definition as a tall, slender structure used for observation or signaling. Thus it has a military function.

**TWOT**

Of the twenty-three occurrences of tûr in the OT, more than half are found in Num 13 in the sense of "spying out, reconnoitering" the land of Canaan preparatory to conquering it. "Careful examination" would thus seem to capture the basic meaning of the root, a meaning that is especially clear in Eccl 1:13; 2:3; 7:25, where an intense search for wisdom is such an important preoccupation in the mind of the author.

**Klein**

offers much greater insight into the word from its conjugation, and by offering more of its historical roots.
To me, a great mystery attaches to the total lack of functionality in the definition. This mystery is pervasive from the *Oxford English Dictionary*, to all other dictionaries I have examined.

The fundamental function of a tower is one of surveillance and reconnoitering, to inspect, observe, or survey. The purpose is to search out the surrounding land, to spy, to explore with one's eyes. All other definitions are secondary borrowed senses.

This cognate identity to the Semitic word is thus found not only in its function, but also remembered in its pronunciation.

Before 900 Middle English *tour*, earlier *tur*, *tor* continuing Old English *torr*, from Old French *turrau*, a tower, Irish *tor*, a castle, and Gaelic *torr*, a tower or castle.

The word may also be seen in Portuguese, Spanish and Italian *torre*, a tower. One source says that these words in the Romance languages may possibly be from a pre-Indo-European Mediterranean language. In light of the other sources this is highly doubtful. The source is not in some pre-IE language; the source is in a Hebrew influence on the languages of the Mediterranean and of Europe.

Scandinavian languages have "n" inflection on the word: Danish *tarn*, Dutch *toren*, Finnish *torni*, Latvian *tornis*, Norwegian *tarn*, Swedish *torn*, all meaning tower or castle.

The word may also be seen in Welsh *torr*, a tower, Irish *tor*, a castle, and Gaelic *torr*, a tower or castle.

Before 900 Middle English *tour*, earlier *tur*, *tor* continuing Old English *torr*, from Old French *turrau*, a tower, Irish *tor*, a castle, and Gaelic *torr*, a tower or castle.

The word may also be seen in Portuguese, Spanish and Italian *torre*, a tower. One source says that these words in the Romance languages may possibly be from a pre-Indo-European Mediterranean language. In light of the other sources this is highly doubtful. The source is not in some pre-IE language; the source is in a Hebrew influence on the languages of the Mediterranean and of Europe.

The word may also be seen in Welsh *torr*, a tower, Irish *tor*, a castle, and Gaelic *torr*, a tower or castle.

The Dictionaries will invariably state that this word comes from an IE word for *turning*, as in a lathe.

Middle English, *a turn*, from Old English *turnian*, *tyman* and Old French *torner* "a turn, a shift on duty," *tour*, tourn "a turn, trick, round, circuit, circumference," from torner, tourner "to turn," from L. *tornare" to polish, round off, fashion, turn on a lathe," and *turnen*, *to turn in a lathe*, from *tornus*, *lathe*, from Greek *tornos*, *torneô*: to work with a lathe-chisel, to turn round, as an auger.

This word has nothing to do with a "turning around in a lathe." The word expresses visual or physical movement around geography.

Traditional Etymologies

The Dictionaries will invariably state that this word comes from an IE word for *turning*, as in a lathe.

Middle English, *a turn*, from Old English *turnian*, *tyman* and Old French *torner* "a turn, a shift on duty," *tour*, tourn "a turn, trick, round, circuit, circumference," from torner, tourner "to turn," from L. *tornare" to polish, round off, fashion, turn on a lathe," and *turnen*, *to turn in a lathe*, from *tornus*, *lathe*, from Greek *tornos*, *torneô*: to work with a lathe-chisel, to turn round, as an auger.

This word has nothing to do with a "turning around in a lathe." The word expresses visual or physical movement around geography.

Related to Aramaic = cord, brim.

Related Akkadian forms are:

*turru* (= string)
*tūra* - 1) again , once more , a second time 2) anyway , nevertheless , yet
*turru* (tuāru) - to send back
*tāru* - to return (v.i.), to return (v.t.), give back
*turrūtu* - a turn, a turning, a reversion
